03 / INTRODUCTION

Eden Hill Atelier creates bespoke invitation suites and cohesive wedding paper experiences rooted in thoughtful collaboration, heirloom-minded craftsmanship, and refined artistic direction.

We partner with couples & planners to create seamless, elevated guest experiences from first impression to final detail.

04 / WHY PAPER MATTERS

Setting the Tone & Feeling

Paper is the very first physical touchpoint of your wedding day. It does more than share a date and location; it establishes the visual tone and the emotional feeling of your celebration. Long before guests arrive, your invitation quietly shapes their expectation and experience.

An Unbroken Visual Narrative

A wedding is a story told in chapters. By keeping the visual language unified from the first texture your guests touch to the day-of menus and signage, we ensure that your narrative remains entirely unbroken, intentional, and consistent.

The Modern Heirloom

In a fleeting digital world, paper possesses tactile permanence. These are heirloom-minded pieces designed with timeless restraint—crafted not just to be read, but to be kept, cherished, and remembered for generations.

Our Commitment to Material Integrity

Eden Hill Atelier aligns with letterpress partners who utilize 100% recyclable artisan metal dies (like copper and magnesium) for all pressed work. By intentionally bypassing the wedding industry's standard disposable, single-use plastic plates, we ensure your heirloom stationery leaves a beautiful impression with zero modern footprint.

We break event projects into two phases, and we may be hired for Phase 1 only, Phase 2 only, or both phases.

Phase 1 — Mail Assets

The Invitation Suite

This phase pertains to all social correspondence associated with your event(s). It is primarily built around the Wedding Invitation Suite, but can be tailored to include Save The Dates, and much more.

Phase 2 — Event Assets

Day-of Paper & Details

This phase pertains to all assets to be displayed and engaged with on the day(s) of the actual event(s). It is primarily built around Wedding Day-of Details, but it can be tailored to include related event assets as well as gifts, keepsakes, and more.

While our phases center on core wedding stationery, our workflow expands to cover every celebration throughout your engagement—from showers and parties to welcome receptions and farewell brunches.

To begin a project, our standard advice is to choose between our two distinct design experiences.

Package A: The Curated Experience

Semi-Custom

Package A is a streamlined design experience created to help your decision-making process be as simple and straightforward as possible without losing the Eden Hill Atelier touch. You will begin by selecting from our curated original designs as the foundation for your aesthetic direction. We then personalize to fit your specific event and style.

Package B: The Bespoke Experience

Fully Custom

Package B is a fully custom design experience where everything we create for you is as unique as your specific vision. We collaborate closely with you or your planner to ensure that everything about your stationery and signage feels like a seamless extension of your event identity as a whole.

For those who require more than what our baseline design experiences offer, we recommend choosing the design package that fits the project approach as both experiences are created to be scaled as needed. Clients may also request a custom quote depending on the scope and what would be the best fit for the project.
